The Start of Something Big

Rick

Brüs

Bill

Rock As It Was Meant To Be

3-Piece Rock....it's the foundation of modern Rock. Cream, Hendrix, Grand Funk, Rush, The Who, Robin Trower, U-2, REM (OK, some of them had singers, but the music format was 3-piece), these are bands that led the way for musicians to stretch out and really create a unique live experience.

GROUNDWÜRX is proud and determined to carry on that fine tradition with tight interplay, killer chops, monster grooves and smokin' hot jams. This is a concert event that has to be witnessed live to appreciate.

**BILL CASSIDY –
Guitar & Vocals**

With decades of experience on the local Classic Rock circuit, Bill Cassidy has the talent and the chops for a searing night of straight up rock, while being able to groove into a Santana sound or the atmospherics of Pink Floyd. You won't get bored listening to this player. Bill knows that music isn't about the solos, it's about the whole sound.....but when this guy takes off on a solo, get out of the way!!

**BRÜS BLINN-KNAPP –
Bass, Keys & Vocals**

Brüs started playing piano when he was 6 and never looked back, picking up drums, bass and guitar along the way. After more years together than they care to admit (playing everything from folk to bluegrass to heavy metal to blues to classic rock) Brüs and Bill have nailed down a sound that leaves fans awestruck. This is live rock at its best!!

**RICK STORM –
Drums & Vocals**

Rick Storm has played in more bands and played more styles than most people know are out there. His rock-solid rhythm and striking voice bring all of his years of experience right to your heart and soul.
